

## # AgentSaver — Partner One-Pager (B2B2C)

### ## What Users See

- Detect subscriptions (bank + email receipts)
- One-tap “Cancel with Proof” — receipt + portal screenshot
- Typical resolution: \*\*hours, not days\*\*

### ## What You Get (Fintech/Neobank)

- Higher NPS & lower disputes
- New revenue share per completed task
- Stickier daily/weekly engagement

### ## Pilot Proposal (60 Days)

- Cohort: 5–10k users
- Integration: deep link + webhook (no SDK required)
- Shared dashboard: win rate, time-to-resolution, top merchants

### ## Integration Sketch

- **Deep Link**: `https://agentsaver.app/partner/start?token=<jwt>`
- **Webhook (POST)**: `/webhooks/task-succeeded` → `{userId, taskId, merchantId, proofUrls[]}`
- **Data**: no raw credentials; tokenized access only

### ## Pricing & Rev Share

- Flat fee per task (\$5–\$15 depending on complexity)
- 20–30% revenue share to partner for completed tasks

### ## Compliance & Trust

- Authorized Proxy consent (revocable)
- WORM evidence vault + notarized proof
- Immutable audit logs; PII redaction

### ## Why Now

- Subscription fatigue + regulatory tailwinds (dark pattern crackdowns)
- Agentic AI makes cancellations scalable and fast

**\*\*15 minute sandbox demo available.\*\***
